

7 September 1973

Memorandum for: Ed and Paul

We have redesigned the IMP quarterly status report in order to (1) improve it; (2) reflect conversion of the Program's objective from total to priority-area coverage.

The Director might be interested in this pretty impressive depiction of Community accomplishment over a 10-year period. IAS is an important aid in the Program; DIA has fallen out. Priorities are based on solicitation of DIA, NSA, INR, the Services, and everybody in the Agency.

Re "Maps printed" in the legend box, the totals shown for USSR and China represent all sheets that include any part of these countries; the totals for Poland and Mongolia represent only sheets that fall entirely within the country. This is misleading and ridiculous and will be changed on the next quarterly report.

[Redacted]
